

Why ACerS?

The American Ceramic Society (ACerS) has served as the premier ceramics and glass membership organization since 1898. Members have exclusive access to cutting-edge technical information, timely research, professional recognition, and training—all of the tools needed to be more efficient and effective in their profession.

*For technical ceramic and glass professionals and students, membership in **ACerS** will **expand your knowledge, yield valuable connections, and advance your career.***

ACerS membership gives you access to a community of more than 10,000 ceramic and glass researchers, engineers, manufacturers, suppliers, and students from around the world who have made ACerS their professional home.

“I’ve been a member of ACerS since I was an undergrad. I really do consider this my professional home. There are a lot of opportunities for networking, which helps with professional development.”

Marina Pascucci, President
CeraNova Corporation

Member Since 1975

Ceramics.org

The American Ceramic Society (ACerS) values and seeks diverse and inclusive participation within the field of ceramic science and engineering. ACerS strives to promote involvement and access to leadership opportunity regardless of race, ethnicity, gender, religion, age, sexual orientation, nationality, disability, appearance, geographic location, career path or academic level.

ACerS
Membership:

***Access a world
of resources.***

If you work in ceramics or glass,
this is the society for you.

Ceramics.org

ACerS is the gateway through which diverse groups of professionals interact, exchange information, and develop tomorrow's technologies.

WE PROVIDE THE TOOLS FOR SUCCESS:

Stay Current

ACerS Bulletin is a must-read publication devoted to current and emerging developments that impact the global ceramics and glass industries.

Bulletin Archive Online

Nearly 100 years of ceramic and glass research, business, trends, and Society news is available at your fingertips with the *ACerS Bulletin* Archive Online.

Access the Latest Research Through ACerS High-Impact Technical Journals

ACerS publishes four prestigious journals containing research on ceramic and glass science. Members receive unlimited online access to every paper published.

Journal of the American Ceramic Society (JACerS)

International Journal of Applied Ceramic Technology (ACT)

International Journal of Applied Glass Science (IJAGS)

International Journal of Ceramic Engineering and Science (IJCES)—ACerS Gold Open Access Journal

Keep Up With the Latest News with Ceramic Tech Today

ACerS' blog on the most current ceramic and glass materials, applications, and business news is distributed three times per week.

Save Money on Industry-Leading Publications

Receive discounts on books, Phase Equilibria diagrams, and more. ACerS members save 35% on Wiley titles.

Earn the Professional Recognition You Deserve

ACerS has contributed to over 100 years of advancements in the ceramic and glass profession through its prestigious awards programs.

Present Your Research and Learn from the World's Industry Leaders

Each year ACerS plans a spectacular lineup of conferences and programs, giving you the chance to present your research and network with many of the world's foremost experts. Members receive discounts on registration fees.

Connect with a Global Community

ACerS online communities enable you to connect globally, seek answers to your questions and solutions to your problems.

Connect with a Local Community

ACerS membership provides you the opportunity to join forces with colleagues by participating in Divisions, U.S. Sections, International Chapters, and Technical Interest Groups.

Collaborate with Others Who Share Similar Interests Through ACerS 11 Divisions

ACerS membership divisions represent principal disciplines of traditional and advanced ceramics and glass, providing members with targeted professional communities, technical meetings, and resources.

Support the Future of Our Profession

The mission of the Ceramic & Glass Industry Foundation (CGIF) is to ensure that the industry is able to attract and train the highest quality talent available through numerous student outreach programs.

Career Assistance

careers.ceramics.org is the best place for job and internship seekers to find a great ceramic and glass career opportunity. Employers can search resumes for the best candidates.

Student Programs for Undergraduate and Graduate Students

ACerS partners with other materials science and engineering societies to provide the **Material Advantage™ Student Program** for undergraduate students.

ACerS Global Graduate Researcher Network (GGRN) addresses the professional and career development needs of graduate-level research students who have a primary interest in ceramics and glass.

The key to your professional success

The key to career success is staying on top of the latest knowledge and trends, while creating and maintaining valuable networks. ACerS members gain exclusive access to relevant information, comprehensive training, and targeted networking opportunities.
