

Four-year FPI Severo Ochoa PhD Fellowship

NanoElectrocatalysis and Sustainable Chemistry

- *Design, development and characterisation of novel electrocatalyst materials for renewable energy conversion*
- *Investigation of mechanisms and structure-property relations of electrocatalytic reactions for sustainable production of green fuels and value-added chemicals*

Institution: **Catalan Institute of Nanoscience and Nanotechnology (ICN2)**

Reference: **CEX2021-001214-S-20-2**

Principal Investigator: **María Escudero Escribano** (maria.escudero@icn2.cat)

Research Area: Materials Science and Technology

Deadline: **January 26th**
